EDUCATION

St. Aloysius Institute of Management & Information Technology

Master of Computer Applications (MCA)

Mangaluru, India

Jun. 2025 – Present

Vivekananda College of Arts, Science and Commerce

Bachelor of Computer Applications (BCA)

Puttur, India

Graduated May 2025

RELEVANT COURSEWORK

Web Application Development (.NET Framework) • Mobile App Development • Database Management • Object-Oriented Programming • Software Engineering • Data Structures & Algorithms • UI/UX Design

PROJECTS

Lost and Found Management System | ASP.NET, C#, SQL Server, HTML, CSS, Bootstrap, JavaScript

Mar. 2026

- Built a full-stack web application on ASP.NET Framework enabling users to report, search, and claim lost/found items across institutional campuses.
- Engineered a role-based access control system with separate User and Admin modules; admins can approve or reject claim requests, updating item status in real time.
- Designed normalized relational database schema (Users, Admins, Items, Claims) with referential integrity; implemented keyword-based search and filtering for fast item retrieval.
- Applied MVC architecture with responsive Bootstrap UI, ensuring cross-device usability and intuitive navigation for non-technical users.
- Produced complete software documentation including Activity Diagram, Class Diagram, E-R Diagram, and Use Case Diagram.

Grocery App | Kotlin, Java, Android Studio, XML

2025

- Developed a native Android grocery management application using Kotlin and Java in Android Studio with an XML-based responsive UI layout.
- Implemented core features including product browsing, cart management, quantity updates, and order summary to replicate a real-world e-commerce workflow.
- Utilized Android Jetpack components and RecyclerView for efficient list rendering; applied OOP principles for scalable and maintainable codebase.
- Ensured smooth UX through Fragment-based navigation and custom adapters, targeting Android 8.0+ devices.

TECHNICAL SKILLS

Languages: Python, Java, Kotlin, C#, HTML5, CSS3, JavaScript, SQL

Frameworks & Libraries: ASP.NET, Bootstrap, Android SDK, Jetpack Components

Developer Tools: Android Studio, Visual Studio, VS Code, Git, GitHub, MS PowerPoint

Databases: SQL Server, MySQL

Core Competencies: Web Development, Mobile App Development, UI/UX Design, REST APIs, OOP, Problem Solving, Data Analysis, Project Management, Agile Methodology

CERTIFICATIONS

- Infosys Springboard – Artificial Intelligence for All
- Infosys Springboard – Basics of Python
- Infosys Springboard – Generative AI for All
- IBM SkillsBuild – Artificial Intelligence Fundamentals
- IBM SkillsBuild – Customer Engagement, Communication & Personality Dynamics, Problem Solving and Process Controls

AWARDS & HONORS

- NCC AIRDC 2024–25 – Selected and participated in the All India Republic Day Camp, demonstrating leadership, discipline, and national commitment.
